COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, OCTOBER 5.

THE main feature in business continues to be the large transactions passing in Wheat, and the exceptional position of our freight market in consequence. Steamer freight has still an upward tendency, notwithstanding the heavy engagements for loading betwixt this and the end of the year, and for Liverpool current quotations now are for October 47s. 6d., for November 45s., and for December 42s. 6d. Owing to the difficulty experienced in getting outward cargo, in the existing depression of the Coal market here, even these figures fail to attract much fresh tonnage, and in some quarters it is therefore believed that a homeward rate must go on advancing until they reach a level which will pay owners to send their boats out in ballast. On the other hand there are not wanting well informed people who are of opinion that there will not be produce forthcoming to cover the freight engagements already made, and that when the bulk of the tonnage comes on the market, say about the end of November or beginning of December, a collapse must ensue. Unfortunately there are practically no reliable means of ascertaining what stocks do exist up-country, and the only guide will be the scale of receipts during the next few weeks. During the month of September the arrivals of Wheat have been about 1,450 steamer tons per day, but even moderate estimates put down double that quantity as necessary—in connection with other articles—to load the vessels chartered, and if it is to be available, we ought shortly to see signs of it now that the rains are about over. In Cotton there is very little doing for export either in ready old, or new for future delivery; and in imports, with the exception of Copper and Yellow Metal, the dulness almost amounts to depression. Money is firm, Government Paper quiet, Shares dull, Sterling Exchange steady. Crop accounts on the average continue very good, and the cold weather crops are being sown under favourable auspices.

MONEY.—The market, although no higher, is decidedly firm, and neither in the bazaar nor with the bank is there any symptom of coming ease. On the contrary, appearances are all the other way, as it is evident that from now till new Cotton begins to come forward, usually a very slack interval, the demand for money will be well maintained by the Wheat trade. At 6 per cent. per annum accommodation is not easily obtainable even on Government Paper.

EXCHANGE.—The tendency throughout the week has been towards increased firmness, and we close to an advance of 1-16d. on our quotations of a week ago. Owing to Council drafts having gone at 1s. 7 13-16d. rather under the level expected—rates last mail-day were slightly weaker at 1s. 7 27-32d. for demand and 1s. 8¼d. for 3 months' Credits. On Friday, however, we opened with a recovery of fully 1-32d., and yesterday a further partial advance of like extent was established. To-day a very firm tone has again been apparent, and we close at:—Bank Bills on demand 1s. 7 15-16d., Telegraphic 1s. 7 29-32d., 3 months' sight 1s. 8 1-16d.; Credits, 3 month's sight 1s. 8 3-16d.; Documents, 1s. 8¼d.; France, 2·21⅜ to 2·14.

For future delivery there has not been much private paper placed this mail, but a moderate amount of Bank Bills has been sold at in some cases a shade over ready rates. Up to the end of the year current rates may be quoted, but after that an advance of 1-32d. per month is asked. This does not indicate particular strength in general views here, and there can be no doubt that many people regard the firmness existing at the moment as more due to tight money than the probability of an advance in exchange on its own merits. At the same time there is every indication of a much more active state of things in exports than imports, and if this is realised, we may see the value of the Rupee hardening somewhat. A fresh departure in rates will as usual be afforded by the price realised for Councils in London to-day. Here the idea seems to be that the minimum will be fixed at 1s. 7 15-16d., and if a large proportion goes at that, we may look for continued steadiness at the least.

On Calcutta we quote demand drafts at par, 60 days' sight at one per cent. discount. On China the nominal rate for 60 days' sight bills is still Rs. 219 per 100 dollars. From Hongkong the latest quotation by wire for 4 months' sight Bank Bills on London is 3s. 9¼d. per dollar, and from Shanghai 5s. 1½d. per tael.

GOVERNMENT SECURITIES have been dull throughout the week at declining values. Last mail-day rates stood at Rs. 101 for Fours and Rs. 110½ for Fours-and-a-half, but on Friday a decline of ¼ in the former and ½ in the latter was established. No further movement occurred until to-day, when a further fall of ¼ to ½ has taken place, closing quotations being Rs. 100 11-16 to ¾ for Fours and Rs. 109½ for Fours-and-a-half. Even at the decline the tendency of the market is unquestionably weak, the prospect of dear money both here and at home offering no inducement to holders, and we should not be surprised to see a gradual decline going on for some weeks to come.

SHARES.—A very dull feeling has prevailed latterly, and, with very few exceptions, our quotations show a movement in favour of buyers. In *Banks* the only change is in Bank of Bombays, which are ½ per cent. lower at Rs. 732½. Nationals remain at Rs. 106, Agras at Rs. 130. In *Land* Companies, Colabas are Rs. 25 lower at Rs. 905, Port Cannings Rs. 5 higher at Rs. 220. In *Press* Companies the fluctuations have been somewhat irregular, but the chief alterations have been downwards. *Spinning and Weaving Mill* shares are all dull and declining. In Dhurrumseys the fall has been Rs. 60, and in Coorlas Rs. 50, but other Companies are generally Rs. 5 to Rs. 20 down. Amongst *Miscellaneous* Companies we note an advance of Rs. 25 in Bombay-Burmah Trading, and Rs. 5 in Kurrachee Landing and Shipping, and Treacher and Co., Ld.

PIECE-GOODS, so far from having undergone any improvement in the interval since the departure of last mail, have, if possible, been duller than ever. The off-take from the bazaar continues on a most meagre scale, the estimated clearances for the week being only about 1,800 packages. Prices are not perhaps quotably lower, but with stocks increasing as they are, holders are naturally more willing sellers. To arrive, operations have been within very limited lines, and there seems no hope of any increased activity this side of the Dewali. Even then a recovery is to say the least of it problematical, as supplies both here and in the up-country markets are unquestionably large, and until they are reduced, buyers will be compelled to operate cautiously, notwithstanding the generally favorable character of the crop reports.

Of *Local Goods* the sales this week have been about 2,000 packages at As. 7½ to As. 8¼ per lb., a decline of ¼ anna.

Yarns.—Imported Yarns still show great dulness, and prices are in some cases ¼ to ½ anna lower. Stocks on the spot are not excessive, but dealers will only buy when tempted by a concession in price. Local Yarns are ¼ to ½ anna per lb. lower, about 1,800 bales having changed hands.

METALS.—*Copper.*—A fair business has been doing latterly, and owing to a further advance at home, prices may be quoted As. 4 per cwt. higher. *Yellow Metal* is also firm at fully previous rates, though we do not increase our quotations. *Iron* continues quite depressed by the excessive stocks on the spot, and looking to the decline in outward freights, even lower figures may be expected.

COALS show great dulness. On the spot the excessive stocks keep prices at a very low level, and to arrive, the operations of one or two sellers have further lowered quotations, Davison's West Hartley having been sold as low as Rs. 13 per ton for October, November shipment. As this is below first cost, there is no general willingness to sell, and now that consumers are beginning to come into the market, it is not unlikely we may be not far off the lowest point if it has not been already reach[illegible]

Cur[illegible] ruled very quiet throughout the week, [illegible] for export the transactions reported are only some 2,000 bales of Old and about 1,000 bales of New Crop. For the former prices are pretty much unchanged, but New Crop commands advance of Re. 1 to Rs. 2 per candy with few at that. Supplies of old stuff do not yet increase, and the quality is still very poor, provement in both respects will probably after the Dewali. The local Mills, by moderately supplied, will be ally of useable descriptions of command about Rs. 10 per

satisfactory on the deal of rain but we do not On the con- and so tified No

freights now ruling quite stop business. *Rapeseed* is nominal at Rs. 6-9 to Rs. 6-10 per cwt. In *Gingelly* we do not hear of any transactions of importance. Dealers still hold for previous prices, say Rs. 38 to Rs. 38½ for New White, but this is above what shippers can afford to pay.

WHEAT is the article of export which is attracting most attention at the moment. A large business is passing, but the high rates of freight current prevents any improvement in rupee rates, which we still call Rs. 34 to Rs. 34½ for No. 1 and Rs. 33 for No. 2 White. Arrivals are liberal about 1,400 to 1,500 tons a day, but to cover the contracts already made we ought shortly to see a material increase. This is a point, however, on which opinion is very much divided, and whilst some say that we may expect 3,000 tons a day in the course of a few weeks, others think that the quality of present arrivals is indicative of stocks becoming exhausted by the end of November.

At Amritsar, on the 28th September, there were 242 deaths. The number includes nearly 150 children, who seem to die in a few hours after seizure by the fever, in convulsions. On the 29th the number of deaths exceeded 280. The dead are being carried out of the city in carts hired by the Municipality for the purpose.

ON 29th September Amritsar was visited by a cyclonic storm, accompanied by violent hail, rain, and wind. Hundreds of trees were rooted up in the civil station, during the storm, which did not last more than an hour-and-a-half. Three-and-a-half inches of rain were registered.

NOTICING that though his proper period of service expires this year, the Hon'ble Whitley Stokes remains in office until next April, the *Pioneer* remarks:—It seems a settled thing now that superior Indian officials, like bills of exchange, shall be allowed so many days' grace after they properly fall due.

CONSEQUENT on the retirement of Colonel W. C. Lester, Bombay Staff Corps, Cantonment Magistrate at Mhow, the following appointments are made:—Lieutenant-Colonel H. M. Burlton, Assistant Cantonment Magistrate at Morar and Officiating Cantonment Magistrate at Mhow, is confirmed in the latter appointment, with effect from the 16th September, 1881. Lieutenant-Colonel M. M. Procter, District Superintendent of Police, Unao, North-Western Provinces, is appointed to be Assistant Cantonment Magistrate at Morar, *vice* Lieutenant-Colonel H. M. Burlton, with effect from the date of assuming charge.

Two hundred and sixteen native emigrants left Calcutta during the month of July for Natal.

Two hundred and fifty mules have just been sent from Jhelum for the Naga transport service.

HIS EXCELLENCY THE GOVERNOR-GENERAL in Council has sanctioned the formation of a Volunteer Corps, to be designated the "Rohileund Volunteer Rifle Corps." The corps will be attached to the 1st Administrative Battalion, North-Western Provinces Volunteer Rifle Corps, for administrative purposes.

WE see by the Siam and Straits paper that Mdlle. Olga Duboin, who some three years ago travelled through India, is now in Bangkok.

AMONGST the specifications of inventions filed in the Office of the Secretary to the Government of India in the Home Department is one by Cursetjee Sorabjee Jassawalla, of Back-road, Marinelines, Bombay, Parsee inhabitant, contractor, for an improved method of propelling carriages by manual power. Another new invention is by G. M. Bellasis, a captain in the Bengal Staff Corps, at present residing at Nagpur, in the Central Provinces, India, for an improvement in the construction of bullets, with holes made in them in such a manner that the passage of the air through the holes causes the bullets to revolve during their flight.

THE volunteer drill season will open again shortly, when we hope to see members of our local corps re-enter with spirit upon their military duties. We believe the roll has been weeded of a good many "dead men" in the shape of names of men who were volunteers only in so far that they appeared in the list—who had never attended a single drill, had never taken out arms or accoutrements, or procured their uniform, and the new season will commence with the corps on a new footing, such members only being retained as are willing to make an effort to become efficient. We see the twelfth annual report (1880-81) of the East Indian Railway Volunteer Rifle Corps has just been issued, and are glad to find that the corps is still as strong and efficient as ever. Capitation allowance was drawn for 661 extra-efficients and 302 efficients—in all 963—this being an increase of four on the previous season. The number of members resigned, died, dismissed the company's service, &c., was 235, and the number of recruits enrolled 237. The volunteers seem to show great interest in all that concerns their drill and parades, and their Adjutant, Captain Gerrard, is thus enabled to maintain an exceptionally high standard of efficiency. No fewer than 442 men qualified for the good attendance badge during the 12 months, while the attendance at the annual inspection showed a considerable increase. There are nearly 200 marksmen in the corps, and only 43 non-efficients; the issue of the new valise equipment has been completed. As a contemporary remarks, "the corps, in fact, is in such a state that it could turn out, at a moment's notice, several hundred men well-armed and equipped, and equal to any work that might be required of them."

OF the Government of India's new scheme of decentralisation in provincial finance, the *Pioneer* says:—"It is not merely an administrative arrangement, but a vigorous impulse imparted to the development of self-government in India, and it may, perhaps, be destined to mark the commencement of a new stage in the progress of this country. There is first of all a practical object to be achieved by the further application of decentralization to Indian finance. The burden of taxation may be most easily borne when it is adjusted to the wearer in each case. Imperial taxes levied on a uniform system for the whole of British India, are less likely to be found acceptable in all provinces than taxation devised locally. Now, the transfer from the Government of India to provinces of more and more branches of revenue and expenditure, and the transfer within the limits of provinces to local organisations, whenever that is possible, of rates and local administration, constitutes an arrangement calculated to bring the financial system of India into better harmony than hitherto with the principles that are approved by experience beyond all question in the more highly civilized States of Europe. The actual public revenue of England, for example, taking local and imperial revenues together, could not be raised by the imperial Government on any system analogous to that which regulates, or hitherto has regulated, the finances of India. It may not unreasonably be assumed, therefore, that by the time it is found possible to bring the system adopted in India into better correspondence with that of Great Britain, it will be found that a much larger public revenue will come to be applied all over the country to public objects than can be collected now by the Supreme Government for administration by its own bureaux. . . . The avowed object of the injunction laid on the provincial Government is the encouragement of self-government. 'The provincial Governments,' we read, 'while being now largely endowed from imperial resources, may well in their turn hand over to local self-government considerable revenues at present kept in their own hands.' . . . A programme of vast magnitude and interest is sketched out for the consideration both of Government and the people. Like other great attempts, this which is now undertaken may be destined to fail; it may be destined to be stifled by the apathy of a population not well adapted as yet to the practice of self-government of any kind; but at any rate it is a grand and inspiriting attempt, the results of which, if it should be destined to accomplish a reasonable measure of success, may constitute the landmarks by which Lord Ripon's *régime* in India will be remembered in history."

AN appeal has been addressed by the liquidators of the Bengal Ironworks Company to the Government of Bengal, relative to the offer of the Government of India to purchase the property for three lakhs of rupees. They point out that fifteen lakhs of rupees have been sunk in the enterprise, and that the claims of the debenture holders alone amount to four lakhs. "Feelings of dismay" are spoken of as being provoked by the offer, and the Government are asked to grant to the company terms of a tenor similar to those granted to the Central Bengal Railway Company. "It is believed that with such concessions, coupled with fulfilment of the promise that has already been made by Government in the event of the company resuming work, to keep the works supplied with orders, the company could be resuscitated and launched again with every prospect of success." The concessions alluded to include a free grant of the land, and it is calculated that the price of the land now held could be devoted to the satisfaction of the claims of the debenture holders; that the unsecured creditors could be arranged with, and necessary capital for working be raised by issue of preferential shares.

INSTRUCTIONS have been received by the Governor of Ceylon to appoint a committee, composed of a Civilian, an Artillery and an Engineer Officer, and a Naval Commander, to take into their consideration, and report on the capabilities of the various ports of the island as coaling and refitting stations for ships of the royal navy and the mercantile marine. The defences of the ports will also form a subject of consideration, in continuation of the reports sent home some time ago for the information of the general committee on colonial defences.

INDIAN coolies are wanted badly in the Straits. A petition was recently submitted to the Maharaja of Johore by gentlemen largely interested in planting and other operations in that State, setting forth that "for the purpose of developing and bringing to a successful issue in Johore, and in other countries similarly situated, such industries as the planting of coffee, tea, cinchona, cocoa, and agricultural products of a like nature, Indian labour has been proved to be well nigh indispensable. Chinese labour is found, from practical experience, not to be adapted to much of the finer work connected with planting of the kinds above named, besides being too expensive for planters to avail themselves of it beyond a certain extent, as Javanese and other labourers of that class cannot be procured in any appreciable numbers. Recognising these circumstances, strenuous efforts are now being made by the Government of the Straits Settlements to induce the Secretary of State for the Colonies to take steps for obtaining Indian immigration into Perak and the adjoining Native States, and we cannot but conclude that your Highness is desirous of procuring for us, who have invested capital in Johore, the same benefit and assistance as the Rulers of those States are seeking for other planters. The Governor has recently publicly declared that, if your Highness will make application to him, undertaking at the same time to form proper and sufficient regulations for the protection of the Indian cooly, without which it is hopeless to approach the subject, His Excellency will use his best endeavours to obtain the sanction of the Home and Indian authorities for the introduction of that class of labour into Johore. We therefore pray that your Highness will be pleased to make the necessary application to His Excellency the Governor and to arrange with him whatever may be required for the proper protection of Indian cooly labourers within the territories of Johore."

WE take the following items of China news from the Honkong *Overland China Mail*:—The health of the Western Empress has been speedily, and, as the Chinese declare, miraculously restored by the skill of a doctor recommended by T'seng-ko-tsеun, the expectant Viceroy of Nankin, who has been rewarded with a red-button and a patent. It is authoritatively reported from Peking that the two Viceroys Tso and Li are now in full accord as to the advisability of introducing railways, and that steps have actually been taken to measure off the ground. Some thirty young Chinamen are being trained at Tientsin in the rudiments of English and telegraphy, with a view to their being employed on the overland line, which is, according to contract, to be completed by next spring. The construction of the Chinese Government telegraph line from Shanghai to Tientsin is making satisfactory progress. The southern end of the line has already been constructed over a distance of 140 miles, or about 40 miles on the other side of Soochow; and from the northern end, Tientsin, the line has been carried as far south as Lin-tsing. Mr. A. W. Danforth, of Newbury port, has been offered a large salary and his expenses to come to China, and superintend a woollen mill at Shanghai. There has been a great typhoon and flood at Shanghai, causing much damage, and an extraordinary accident in the breaking loose of a large pontoon which, by something short of a miracle, was carried up the river without colliding with any shipping or creating any great devastation. At Amoy and Foochow there have been serious typhoon bursts with considerable damage to shipping and property and loss of life. Terrible reports are coming in from inland of the dread havoc wrought by the typhoon. On every side villages have been destroyed and hundreds of lives lost. At Ningpo the horrors of the typhoon were augmented by an inordinately high tide, there being 30 or 34 feet of water on the bund, and the streets so flooded as to necessitate the use of sampans.

THE *Egyptian Gazette* of the 21st Sept. remarks:—"In spite of the very straightforward declaration made by Cherif Pasha in his letter to the Khedive in reference to the Control, it pleases some Italian papers to represent both him and the Khedive as having views in reference to that department of the State directly contrary to those expressed. Neither the Khedive nor Cherif Pasha stand in need of our defence—the loyalty of their character is well known—but we may state as a fact pregnant of good augury for Egypt that the influence of the Control in matters other than finance is now happily stronger than at any time since its institution. Cherif Pasha and Mr. Colvin are on the best possible terms, and the advice of the latter, while never volunteered, is sought as willingly as it is given."

THE Rangoon papers state that Mr. George Rider, Post-master of Thayetmyo, has absconded for reasons yet unknown.

MARRIAGE engagements in high life in Japan are now notified by the native papers in the same style as in the society journals at home. The *Hiogo News* gives this translation from an Osaka paper:—It is announced that Miss Iwakura, the daughter of His Excellency Iwakura, Third Minister of State, is engaged to Mr. Arima, ex-daimio of Kurume.

THE BANGALORE SEASON.

(FROM OUR OWN CORRESPONDENT.)

BANGALORE, SEPT. 28.

THE annual meeting of the S. I. R. A. has come to a close, and a grand success it has been. If this meeting has proved anything, it has most surely proved that our volunteer forces are in a high state of efficiency, and that they can any day hold their own against their comrades of the regulars. The chief prizes have been pretty equally divided between the army and the volunteers. As I have already telegraphed, the Nilgiri Volunteer Rifles carried away the Bangalore Cup, a triumph never before achieved by any civic corps; the Duke's own took the Carbine Cup, open to the artillery, cavalry, and sappers and miners; our own local corps won the Running Contest, defeating a number of British and Native Infantry teams. The regulars have won the N. C. O.'s Plate and the Army and Volunteer Challenge Cup. These are all "team" victories. Let me mention some individuals who have distinguished themselves. The champion shot for the year is S. I. M. Nolan, 2nd Hampshire (late 67th), Captain Pratt, B. R. V., and Sergeant Davies, B. R. V., following closely on his heels. These three have won some of the chief prizes, and are a credit to the corps they belong to. Amongst other volunteers who have secured good prizes, I may mention Lieutenant Leonard, B. R. V., Captain Hamlin, N. I. R., Vol. Stephens, N. V. R., and Vol. Browne, of the Calcutta Rifles. Only one or two of the Madras Guards came in for anything good. Corpl. Drew, 2nd Hampshire, is one of the largest men in, and a deserving one too. Captain Pollock, Military Secretary to the Acting Commander-in-Chief, has also been fortunate. A notable feature in this year's meeting is the great sociality which existed among the different corps. Breakfasts, luncheons, &c., have been frequent, and at these there has been any amount of speechifying, and congratulating. The local corps has spared no pains to entertain the visitors right royally, and they have succeeded admirably. The last luncheon was a grand success, and wound up amid deafening cheers by those present drinking to the "Ladies, Army, and Volunteers, and to a speedy meeting again." This last hope will be realized, as a number of the B. R. V. go down to Madras at Christmas to play a series of matches there against the Duke's Own and the Madras Guards. Billiards, tennis, cricket, rifle matches, and other athletic exercises are to be indulged in. Summing up, there can be no doubt about the success of the meeting this year. To Major Saunders, Captain Staindorth, and others who have had lots to do to see that all is going right, the thanks of every one are due—to General Payne for the interest he has taken in the shooting throughout the meeting; to Mrs. Fayn for successfully distributing the prizes; and lastly, to the officers commanding regiments for allowing their bands to enliven the ranges every evening with sweet music. The attendance each day was very large.

A melancholy accident occurred the other morning while the I. 3rd R. A. were out at drill. Two spare horses under the control of Driver Murphy bolted. The poor man's head was brought into violent contact with the branch of a spreading tree, and instant death was the result. Besides, as he fell one of the horses finished the tragedy by severely kicking the poor driver on the cheek. An inquest was held, and a verdict of accidental death returned.

Judging by some remarks which are appearing in the local daily paper, no little dissatisfaction has been caused, and no little chagrin, by the inconsiderate way in which the invitations for H. H. the Maharaja's fancy ball were issued a little while ago. It has been not incorrectly said that His Highness intended that all classes of society should enjoy his hospitality, more especially those who are in his service and hold very respectable positions there. None of these were invited to the late ball, and it was reserved for those who can boast of being in "society" alone—those who have no sort of claim on His Highness at all—to have the enjoyment all to themselves. This was hated like indeed, it would have been better had His Highness been advised to follow the example of the Hon'ble R. A. Dalyell, who acted as Commissioner here for a short time. Mr. Dalyell's plan was a ball to outdoor folk on a grand scale, to which every one used to be invited, and at which every one used to enjoy himself or herself. His splendid Lal Bagh fête will ever be remembered; and Mr. Dalyell left Bangalore the most popular man among all classes of people. It is wrong—decidedly wrong, some people say—that money given by the State should go towards enlivening the "members of society" only. And I think this is right in view of the case.

I told you in my last that the Maharaja would, now that he has returned to Mysore, enjoy a season of quiet. Such is not to be the case. The great Dussera festival is to be kept up at the capital with great pomp and festivities, and I hear that a large number of "members of society" here have been invited by His Highness to visit Mysore at this time, where they will be royally entertained. The Acting Resident has preceded thither, as has a number of other officials. What the British Resident has got to do with the Dussera festival does not appear quite clear. Any way, those who do go to Mysore may be sure of a good deal of enjoyment.

One of the most thriving of public institutions here is the Literary and Scientific Institute, specially adapted for the "middle classes." A very large number of papers are taken in, and altogether this institution, which was first set on its fair way to stand, has become the most popular place of public resort. I am told that a series of scientific and other lectures are shortly to be delivered at the institute.

"Lady Audley's Secret" and "Good for Nothing" are being acted with great success in the Royal Tiger Theatre here. The performances are for the benefit of Mrs. Gilbert, widow of the late regimental school-master of that name. She is going home, and both officers and men are desirous of doing something for her before she leaves. Mrs. Gilbert herself is a most talented actress, and takes the leading parts in these plays. The Bangalore public for once is coming forward liberally to help in this most deserving object.

The Parsee Elphinstone Dramatic Club, which has been performing here with great success for some time past, has, at the special invitation of the Maharaja, who pays all expenses, gone to Mysore, to amuse the guests of His Highness during the Dussera.

The local colleges and schools are now having their Michaelmas holidays. Cricket, therefore, is being indulged in. The great annual match (the Oxford *versus* Cambridge of Bangalore) between St. Andrew's and Bishop Cotton's schools ended, after some very fine play, in favour of the former by nine wickets.

The weather continues fine; prospects are improving, and all signs of famine and scarcity have disappeared.

GENERAL WEATHER AND CROPS REPORT.

THE following are the reports of the revenue and agricultural department on the state of the season and prospects of the crops throughout India for the week ending the 27th September:—

There has been more or less rain in all districts of Bengal as well as in Assam and British Burma, and prospects of the crops, except where damaged by floods, are generally favourable. In the North-Western Provinces and Oudh light showers fell in the eastern districts and elsewhere, but more rain is now everywhere required for the rabi sowings, though crops are on the whole in good condition. In the Punjab, in the Central Provinces, and in the Central India and Rajputana States rain fell in some places, and agricultural prospects are satisfactory. In the Bombay Presidency prospects have been improved by rain in a great part of the Deccan; but in the Southern Mahratta Country and Satara crops are suffering from drought. In the Mysore State rain has continued to fall in more or less abundance, and crops are thriving except in a few taluks. In the Nizam's Territories the kharif is now doing well. The Berar and Coorg reports continue favourable.

Prospects seem good throughout the country, except in the Southern Mahratta Country where rain is much required. Harvesting has begun in places, and the reports which refer to the outturn indicate the probability of a good general yield.

Madras (Sept 28th)—General propects good.

Bombay (Sept. 28th)—Rain has improved prospects in Nasik, Ahmednagar, and partly in Khandesh, urgently required in Southern Mahratta Country and Satara, where crops have mostly withered; cholera continues in Satara, decreasing elsewhere) fever and cattle-disease continue in parts; prices rising in Satara and Southern Mahratta Country, especially in Dharwar,—generally steady elsewhere.

Bengal—(Sept. 28th)—Rain in all districts during week, in some districts rain rather heavier than usual for the season and fine weather wanted; prospects generally favourable, except that some damage has been caused to the rice crops by floods in parts of Mirzapore, Howrah, Dhurbanga, Mozufferpore, and Purneah; some rice destroyed by rats in Chittagong Hill Tracts; autumn harvest generally yielding a fair average outturn, but in some places early rice has been below average; fever as usual at this season prevalent in many districts; cattle-disease in Orissa and in some parts of Chittagong and in Thana Mirzapore in Moorshedabad.

N.-W. Provinces and Oudh—Light showers only in Eastern districts, Rohilkhund, and Meerut, elsewhere no rain has fallen during the week, and more is now everywhere required; late rice being injured in places, but crops generally good; prices risen in Meerut and Saharanpore, falling in Kumaon, elsewhere stationary; fever prevalent everywhere, and cholera continues in Meerut; cattle-disease continues in Jhansi and has appeared in Cawnpore, Fyzabad, and Gorakhpur.

Punjab—Rain has fallen in the Amritsar, Sailkot, Ferozepore, and Rawalpindi districts; agricultural prospects continue good, except in the Attock tahsil of the Rawalpindi district, where rain is wanted: cholera disappearing, but fever and bowel complaints prevalent in Lahore Ferozepore, Rawalpindi, and Amritsar; prices fluctuating.

Central Provinces—(Sept. 28th)—Weather during week cloudy and moist; prospects of *kharif* crops, especially rice, good; fever prevalent; cattle-disease in some districts; cholera abating; prices steady.

British Burma—(Sept. 24th)—Public health good throughout the province; only a trifling amount of cattle-disease; crops doing well, except where damaged by floods; every prospect of a bountiful harvest.

Assam—Heavy rain throughout the week; prospects of sali dhan good; cattle-disease still reported; district healthy.

Mysore and Coorg—Rain continues more or less plentiful throughout the Mysore State, and crops are everywhere reported in good condition, except in the Maidan taluks of Shimoga district, where more rain is still much wanted; prices stationary, with tendency to rise.

Berar & Hyderabad—(Sept. 28th)—Weather rainy crops in good condition.

Central India States—(Sept. 28th).—Cholera has disappeared from the Indore city; weather close, and prospects of more rain; agricultural prospects favourable.

Rajputana—Prospects and health good; prices falling.

Nepal—(September 22nd).—Rain almost incessant throughout the week, and no appearance of fine weather, which is much needed for the hill crops; in the lower hills between Katmandu and Segowli a sudden rising of water has swept away four bridges, breached a long section of the road, and left the Residency without a post from 15th to 22nd September.

BOMBAY.

TO-DAY.

Billiards, Waverly Billiard Rooms, 9 p.m.

VESSELS ARRIVED.—The following vessels arrived yesterday:—Portia, from London; Julia David (s), Port Said; Colaba (s), Moulmein; Khedive (s), Calcutta; Prince Arthur, Cardiff.

VESSELS SAILED.—The following vessels sailed yesterday:—Royal Welsh (s), to Marseilles; Avoca (s), China; Rydal Hall (s), Liverpool; Chinsura, (s), Calcutta.

PRINCE'S DOCK.—The s. s. Clan Alpine left, and the Clan Macleod entered, the dock on Tuesday; the s. s. Khedive and the Royal Welsh left the dock yesterday.

FALSE WEIGHTS.—Nowla Praga, a Marwarree retail dealer in brass and copper-ware, was yesterday fined Rs. 20 by Mr. P. Ryan on being convicted of having in his possession a false weight.

TULSI LAKE.—The total fall of rain at Tulsi up to 6 a.m. on Sunday, the 2nd instant, was 81 inches and 49 cents. The height of water in the Lake was 48·54 feet. The height in the corresponding week last year was 46·85.

DROWNED.—A coroner's inquest was held yesterday at Matoonga on view of the body of Rookhmeen, a girl aged fourteen years, the wife of a labourer. The deceased accidentally fell into a tank. A verdict of accidental death from drowning was recorded.

ATTEMPTED SUICIDE.—A Hindu woman named Dewa, residing at Coombarwarra, was on Tuesday last removed to the J. J. Hospital suffering from the effects of opium which it is stated she had taken in consequence of a quarrel with her husband.

ALLEGED THEFT.—Vishram Suckoojee, residing at Shaik Abdool Pak Mody-street, reported to the police on Tuesday last the theft of sundry gold ornaments, wearing apparel, and cash, of the aggregate value of Rs. 80, from his premises during his absence from home.

GOA ELECTIONS.—The value of the Portuguese elections at Goa is shown by the measures the Goa Government adopted during the late election. The circle of Bardez, for the election of one deputy, comprises Bardez proper and the two districts of Damaun and Diu. The number of voters in the former is fixed at 10,000, while the two latter stations are limited to 7,000. A movement was set on foot to bring forward a popular candidate to compete against the Government nominee. There was a probability of the popular candidate polling a greater number of votes at Bardez. To avert defeat Government, at the eleventh hour, surprised the public by raising the number of voters at Damaun and Diu from 7,000 to 12,000.

THE ESCAPE OF A CRIMINAL LUNATIC.—The Parsee lunatic Nusserwanjee Nowrojee Acharia, who recently effected his escape from custody while on his way to attend a prayer service at a Parsee Agiary, has been arrested by the police authorities at Raichore, and was sent to the Commissioner of Police, Bombay, yesterday. The prisoner was arrested at Raichore for attempting to assault a man with a clasp-knife. His appearance tallying with the description of the escaped Parsee lunatic, he was forwarded to Bombay. The prisoner, on his arrival at Bombay, had in his possession the sum of Rs. 33 in currency notes and cash. He states that he had Rs. 120 when he left the lunatic asylum, the money having been given to him from time to time by friends visiting the asylum. He was yesterday handed over to the officer in charge of the Lunatic Asylum at Colaba.

A COMPLAINT UNDER THE VACCINATION ACT.

YESTERDAY at the Fort Police Court, before Mr. C. P. Cooper, Mr. D. S. Kemp appeared to answer a charge of neglecting to take his child for inspection after it had been vaccinated, as required under the provisions of the Vaccination Act.

Dr. Anuntra Chundoba, Superintendent of Vaccination, deposed that the defendant had his child vaccinated at the J. J. Hospital; but had failed to comply with the provisions of the Vaccination Act, in not having brought back the child for examination, although he (witness) had served him with a reminder.

Mr. Kemp stated that he might have avoided these proceedings by having the calf brought to his residence, but that he was deterred therefrom by humane motives, and he had the operation performed at a public vaccine station. His child was too ill on the eighth day to be taken back for inspection; and the Act did not compel him to take the child to the station after the eighth day. The Act was silent as to the proceedings to be adopted after the eighth day, except that it directed that a certificate was to be obtained from the vaccination officer to show that vaccination had taken effect. Consequently he obtained a medical certificate showing that vaccination had been successful in the case of his child. In his reply to the circular of the vaccinating officer he requested him to satisfy himself, either by the perusal of the certificate which he enclosed or to call at his residence and inspect the patient, and then to grant him a certificate of vaccination, as required by the Act. He contended that he was exempted from penalty under section 23, which was to the effect that any one failing to bring back his child for inspection *without reasonable excuse and in contravention of the Act* (that is, on or before the eighth day) was liable to a penalty; and he was prepared to prove the illness of the child, which constituted a valid excuse.

Dr. Anuntra said that the Act insisted that every child vaccinated should be brought back for examination, whether the eight days had passed or not, and that every vaccinating officer should satisfy himself by inspection if the vaccination had taken effect. He then referred to a Resolution of Government directing the vaccinating officers to carry out the provisions of the Act strictly.

His Worship remarked that the excuse tendered by the defendant for not taking his child for examination was a reasonable one, and was admitted as valid. As far as he could see, the point for decision was whether Mr. Kemp was compelled to take his child for inspection to the vaccination station after the eighth day had passed. He would carefully look into the Act, and deliver his decision on a future day.

OFFENCE AGAINST THE FOREST ACT.

IMPERATRIX VS. GOVERDHUN DEWKARAM WANI.

In this case the accused was convicted of theft in respect of certain trees in Government forest land at Kainand village, Tannah district. Mr. Pherozshaw Mehta, instructed by Messrs. Tyabjee and Dayabhoy, appeared for the accused; and Mr. Nanabhai Haridas for the Crown.

It appears that the accused, Goverdhun Dewkaram Wani, of Dhanoo talooka, now undergoing a sentence in Tannah Jail, was convicted in a trial held on the 25th August, 1881, by Mr. W. W. Lock, First Class Magistrate, Tannah district, of theft, in respect of certain trees in Government forest land at Kainand village, and was sentenced to pay a fine of Rs. 1,000, or in default to undergo rigorous imprisonment for three months. An appeal was made on the 12th September against the sentence in the sessions court of Tannah, before Mr. Walker, the acting Judge, who confirmed the conviction and altered the sentence, to rigorous imprisonment for six months, and a fine of Rs. 100, or in default of payment to further imprisonment for one month. The accused stated that he had been employed by one Wanmali Motecalal to manage his estate in the Kainand village, which land he had lately purchased from one Lalya Kalya. Wanmali, after giving the usual notice to the mamlutdar, employed the former owner of the land, Lalya Kalya, to cut the wood or his land, in order to prevent any trees belonging to an adjacent Government forest being cut down by mistake. The accused, on his part, employed a peon named Luxmon and another person named Dhakloo Rowjee, to superintend the cutting of the wood, which rendered it unnecessary for the accused to go in person to the jungle, and he therefore lived at his residence in Kainand village. The men employed by the accused to cut the wood in the forest did not make the slightest objection to the cutting of wood; nor did they attempt to prevent Lalya Kalya from removing it. But, before the actual removal, the forest authorities appeared on the scene and laid a complaint. The accused, in his petition to the High Court, prayed that the papers in the case might be sent for, and that the sentence which he was at present undergoing in Tannah Jail might be quashed, or at least commuted to one of fine adequate to his offence

secured for a sum Rs. 200. The father of the bride has taken upon himself the task of educating the bridegroom.—*South Indian Post.*

CRIMINAL BREACH OF TRUST BY THE JEYPORE RAJAH'S AGENT.

At the Criminal Sessions held at Vizagapatam, an agent to the Maharajah of Jeypore named Lingam Laxmajt Purdit, was charged with criminal breach of Trust under section 409 of the Indian Penal Code, in having dishonestly misappropriated the sum of Rs. 6,752 as Maktizar and agent. It would appear that the prisoner was for ten years, from 1869, Mooktizar to the Maharajah of Jeypore, a position of great trust and of considerable responsibility. On the 2nd December 1875, the Maharajah left Vizagapatam for Madras to pay his respects to His Royal Highness the Prince of Wales, and two days before his departure the prisoner drew a bill for Rs. 25,000 in favor of the Bimlipatam branch of the Bank of Madras, which the Maharajah accepted and the amount, less discount, viz. Rs. 24,310, was left at the prisoner's credit in the Bimlipatam Bank. Rs. 10,000 were remitted by the prisoner to Madras, and Rs. 6,839 were paid to the Bank to renew the bill. The District Magistrate who held the preliminary enquiry omitted the accused on a charge of committing criminal breach of trust in respect of the balance, viz., Rs. 7,480. As the prisoner drew out this money by eight different cheques, it was considered that each improper withdrawal of money was a separate offence. The complaint was laid by the Dewan of the Maharajah of Jeypore, who was imperfectly acquainted with the facts and who had not disclosed what he knew. He charged the prisoner with embezzling upwards of Rs. 14,000, the whole amount of the money placed at his creditless the ten thousand remitted to Madras. The Court remarked that the Dewan was guilty of culpable negligence in laying such a complaint, for although that the prisoner paid between six and seven thousand rupees was not only within his easy grasp and ready knowledge, had he made the ordinary enquires which a person was bound to make before laying a criminal charge, but it was also within his special knowledge, as he himself wrote to the prisoner on the 3rd February and again on the 6th February to get Rs. 7,000 somehow or other, and renew the bill. The Dewan stated that the money was placed at the prisoner's credit in the Bank solely for the expenses of the Maharajah's tour, but it was not proved, and all the evidence and probabilities of the case were against the contention. The Maharajah reached Madras on the 5th December, and although they had taken 30 to 40 thousand rupees with them, the Dewan immediately telegraphed the prisoner to send a remittance of Rs. 10,000, and on the 10th December, 1875, the prisoner mentioned in the letter forwarding the remittance that he had paid Rs. 4,000 to Madgole State and wanted Rs. 6,000 more. On the 10th January, 1876, the Dewan wrote to the prisoner asking him to have money to meet a hoondo for Rs. 6,000 and to negotiate a loan for Rs. 30,000. The Court discredited the Dewan's statement that the money was entrusted to the prisoner merely to forward to the Maharajah from time to time whenever he might ask for a remittance. The money could have been transferred to the Bank at Madras if it had been borrowed for the tour. The Court observed that the criminality of the prisoner did not appear to be in any way affected by the conduct of the Dewan, who most probably knew of the embezzlement at the time, or immediately on his return from the tour; at that time, the prisoner and the Dewan were the two principal advisers of the Maharajah, and their position was a strong one. The prisoner did not allege that the Maharajah entertained any enmity towards him or that anything had occured lately to alter the relations existed between them since he ceased to be Mooktizar and Agent. The accused was found guilty, and considering the unbounded trust which had been reposed in him, and his gross abuse of that trust, the Court deemed it right to sentence him to be rigorously imprisoned for three years, and to pay a fine of Rs. 5,000.—*Times.*

THE SIMLA JEWEL CASE.

THE hearing of this case was continued in the Judicial Assistant Commissioner's Court, Simla, on Friday morning.

Mrs. Harriet Tytler deposed as follows:—I have known General Hamilton for about eleven years. Mr. Jacob I have known for about four. In October 1878, General Hamilton came to Simla. I went to call on him; but he was out. A few days after he came to see me. The day before, Mr. Jacob, knowing I was desirous of purchasing jewels, had sent me some rings on inspection. Next morning, he called to know if I would buy them; I said I had no money then, but expected some from England; and that if they were not sold by the time the money arrived, I would take them. Meanwhile, General Hamilton called, and I left Mr. Jacob in the studio, asking him to wait. The General stayed some time, discussing his affairs, and I mentioned my intention of speculating in jewels. I said there were some rings in the market which I thought of buying. As I had no money, he offered to lend me some, but I declined his offer. He asked to see the rings, and I went and fetched them. General Hamilton admired them very much, and said he would buy them himself, if I did not. He asked to be introduced to Jacob, whom I accordingly brought from the studio. A letter was read, in which the witness advised the General to make the purchases, and saying that if he cleared 50 per cent within two months, he ought to be very grateful to her for putting him in the way of making so much money.)

My reason for mentioning 50 per cent is that Mr. Jacob told me that the jewels would fetch a clear 50 per cent profit. I knew General Hamilton brought some things from Mr. Jacob,—seven, I think. General Hamilton offered me one-third of the profits, but I declined to accept it; he made the offer out of a desire to help me.

(Statement of valuation in witness's hand-writing shown to her). The heading and signature are written by Mr. Jacob; the rest by me at his dictation. General Hamilton was present at the time. I supposed defendant asked me to write, as my writing was clearer than his. I do not know why he put at the head of the list that they were articles purchased by me. The jewels were sent to my son-in-law, in London, for sale. I often saw plaintiff at Mr. Jacob's after this, bargaining; though I never saw him make any actual purchases. In the early part of December, 1878, I joined Mr. Jacob at Delhi. General Hamilton had gone down before. My object was to invest Rs. 12,000 or Rs. 13,000 in jewels, and to go home with Mr. Jacob to dispose of them. Before I left Simla, I heard from my son-in-law that he could not sell the jewels I had previously sent home. I was much alarmed, and told Mr. Jacob so. He offered to go to England for three months and sell the things. It was arranged that he should go home, as soon as he had invested the money which I had borrowed from the Bank on the mortgage of my house property, backed by General Hamilton's security. I had borrowed Rs. 20,000, and made Rs. 11,000 over to Mr. Jacob, to make purchases. I had heard that the things were unsaleable in England, but thought that all would be well if the defendant went home. I would not have given him the money had I not believed he was going home that cold weather. General Hamilton told me at Delhi that he had received a telegram saying the turquoises were unsaleable, &c. I told Mr. Jacob, who said "tell him Mrs. Tytler, that I will take back the things and give him back his money." I advised General Hamilton to accept the offer, but he would not hear of it, was quite indignant, saying "Why should I give them back without profit? You forget all the anxiety which my wife and I have suffered." When I entered on these gem speculations, I thought they would be profitable. Mr. Jacob showed me several letters from persons to the effect that they had realized large profits. He did not advise me to enter into the speculation. Everything I bought was valued by Mr. Jacob for resale in England, and had I realized those prices, I should have profited largely. I profited on all I resold, but only sold a few things. For some I got the prices at which defendant had valued them. I tried to sell all at the prices quoted by Mr. Jacob; but only succeeded in a few instances; of the articles I could not sell, the prices offered were a good deal less than Mr. Jacob's valuation, though in many instances more than I actually paid for them. Just before leaving England, I tried to sell the things belonging to General Hamilton; but not succeeding, left them with Mr. Harris, the jeweller. While I was at Delhi, plaintiff sent an advance of money by post to Mr. Jacob for investment. Mr. Jacob had Gener[illegible]milton's talwar.
